

I am very happy with the do not call system in place. Although not 100% foolproof (they seem to find ways around it), a majority of those very annoying calls have subsided.

If you decide to revoke this law, I wish there was a way to give them your phone numbers (probably unlisted and kept secret) so that you could experience what we went through and would have to experience again.

We are asking you NOT to revoke this law in place in NJ.

Thank you.
R.J. Baker
